OUR FIFTIETH YEAR

1878 to 1928

AUG 12 1927

WE are completing this Autumn fifty years of continuous business. To our many customers, some of whom have been with us for almost that length of time, we extend thanks. To everyone we offer a complete service for the furnishing of first class hardy nursery stock economically. We aim, in starting our second half century of effort, as in the past, to give satisfaction.

These Rhododendrons are twenty feet high. They were photographed June, 1927, on Long Island, where they were supplied by this company in the late eighteen nineties.

This Price List Contains
SOME SPECIALS FROM OUR
COMPLETE LISTS, FALL 1927

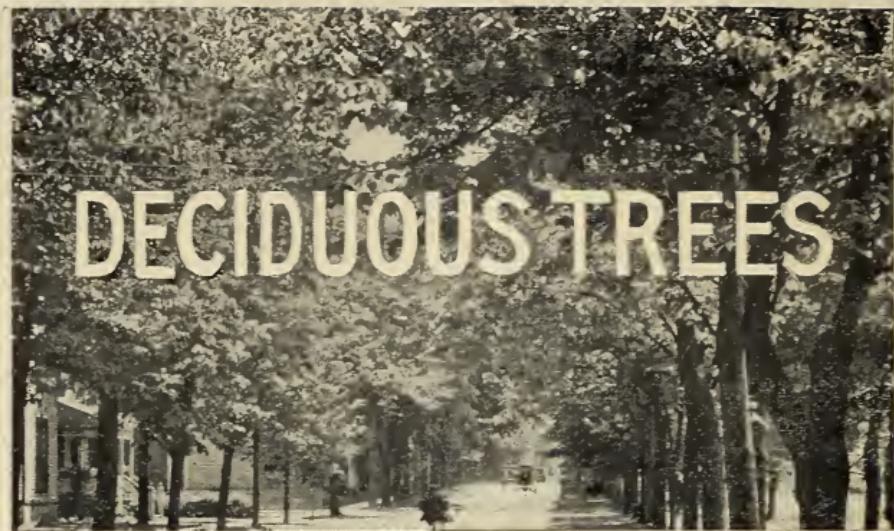

FALL planting of trees, shrubs and evergreens, if properly done, should be as successful as spring planting. The whole secret is to get ready early. Evergreens in late August and September—Deciduous trees and shrubs as soon as the wood ripens, September and October.

DECIDUOUS TREES

A street in a New Jersey town as it appeared in 1916.
The trees furnished by us in 1889.

SINCE the late growth on Shade Trees makes it difficult to complete counts until later in the Autumn, we are able to quote at this time only a few special items. We can furnish, however, a complete list of standard varieties in the popular sizes. Please write us for quotations on anything you expect to use this Fall or next Spring.
